LATEX PILLOW

Sleep well all night long as you lay your head on this latex pillow. Which feels soft against your skin, while the interior is %100 latex foam to give you all the comfort and support of a medium firm pillow.

VISCO PILLOW

The responsive memory foam adjusts perfectly to the shape of your head and neck every night, allowing your muscles and ligaments to relax. Aside from sleeping better and in turn having more energy day in and day out, the benefits of sleeping with the correct posture include avoiding stiff necks, shoulder stiffness, upper back pain and tension headaches. Sleep on a Memory Pillow and you will wake up refreshed and ready to take on the day ahead.
